Little Beavers Preschool is proud to offer a second year of kindergarten enrichment programs. Our curriculum plans complement those used in the Corvallis kindergarten classrooms. Children will practice and strengthen the skills they are learning each day in school. We focus on language/literacy and math reasoning skills. Problem solving, scientific reasoning, and motor skills are also introduced. Educated and experienced teachers guide each child to reach their academic and social potential. Our early educational campus provides plenty of room for exercise and outdoor recreation. Little Beavers is excited to be a part of this next step in your child's educational journey.
